

MOCA

Mobile Operators Competitor Analysis

MEDIA PACK / AFFILIATE

Prepared for Nomad eSIM · June 2026

MOCA is an Israeli competitive-intelligence and price-comparison platform tracking the local mobile market and **30+ global travel eSIM brands**, refreshed twice a day. We turn that live data into purchases through two high-intent channels - and **Nomad is already live** in our comparison.

TWO CHANNELS THAT CONVERT

Public comparison

At **mocaintel.com** and our consumer page **esim.mocaintel.com**, travelers compare eSIM plans by destination and buy straight from the provider. Research-then-buy traffic with clear intent.

MOCA Guest Connect

White-label **hotel guest portals** in Israel. Guests scan a QR at check-in, see a live neutral comparison matched to their trip, and buy directly - perfect for outbound and inbound travelers.

BY THE NUMBERS

2× daily

Live pricing across **10 Israeli carriers** and **30+ global eSIM brands**

1,400+ plans

Nomad already ingested across **220+ destinations** in our comparison

4 live partners

Running on Impact today: **Airalo**, **Holafly**, **Voye**, **Saily**

Where Nomad fits

Your regional and global bundles frequently land in our best-value slots for multi-country trips - exactly what our audience of Israeli and inbound international travelers searches for. We project **500-700 monthly eSIM purchases chain-wide** at full hotel deployment, and would value volume commission tiers as we scale.

WHAT WE'D LIKE TO SET UP

1

Approve our **Impact partnership** or open a direct affiliate relationship

2

Enable a **MOCA coupon code** and confirm the customer discount %

3

Confirm **Sub-ID support** for per-hotel conversion attribution

4

Share **deep links** and brand assets for the listings
